Student Billing

Residence Hall and USAC residents are billed by the Accounts Receivable Office for long distance calls. (One resident in each USAC apartment is billed for basic service.) Telecommunications call detail statements are mailed each month.

Charges must be paid monthly to avoid losing service and incurring a reconnection charge (non-refundable) of \$10.

You are responsible for all calls placed using your authorization code. Do not give this information to anyone!

ISU uses Direct Dial and International Direct Dial rates, updated quarterly. Direct Dial calls and International Direct Dial calls are discounted.

NOTE: FRAUDULENT BILLING CAN LEAD TO PROSECUTION

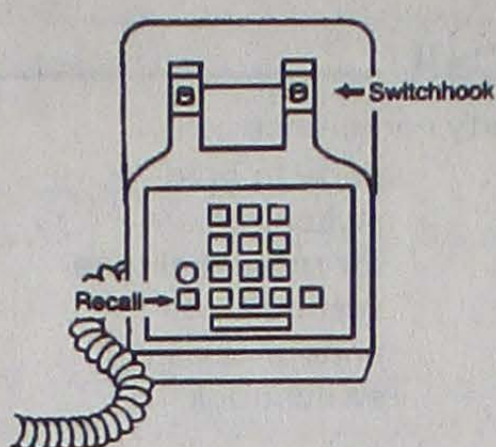

It is illegal for a person to charge long distance calls to another person's calling card or authorization code without their permission. Persons placing such calls to avoid payment for service are subject to prosecution and if convicted are subject to imprisonment and/or fine.

Data Network Information

The Iowa State University Data Network provides connectivity between computers, terminals, and local area networks throughout campus. This gives users the ability to access any machine on the data network with the appropriate software.

- Asynchronous Network (ISN)
- Terminal Server (ISN/Ethernet Gateway)
- FDDI/Ethernet Network
- Internet Gateway

To establish service:

Faculty/Staff - contact departmental Telecommunications coordinator

Students - contact Telecommunications, 271 Durham Center

Connecting to Campus Inbound Modems

ISN connected:

Several inbound modems are connected to the ISN enabling off-campus callers to access the network via modem by dialing one of the following numbers:

294-1200	(1200 baud)
294-2400	(2400 baud)
294-9600	(9600 baud)

When "CONNECT" appears:

PRESS	<ENTER> until "DIAL" prompt appears
ENTER	address you want to call (i.e. ISUVAX, WYLBUR, HELP)
PRESS	<RETURN>
	Log in as usual

When you finish, follow appropriate logoff procedures. If "DISCONNECT" does not appear on your screen, enter the disconnect sequence (<BREAK> <BREAK>).

Terminal Server connected:

Several high-speed inbound modems are connected to a terminal server that provides direct access to the Ethernet network. Use these modems only if you have a 14,400 baud modem or a 9600 baud modem with data compression. To access these modems, dial:

294-enet (294-3638)

When "connect" appears, press <ENTER> to view the menu option.

Note The outbound modems are only available from the ISN. If you wish to use these modems, you must first connect to the ISN (see ISN/Ethernet Gateway).

Connecting to Campus Outbound Modems

Using the ISN outbound modem pool, callers may also connect to off-campus systems reachable by modem. Outbound modems are Hayes-compatible and support 300-, 1200-, 2400-, and 9600-baud connections, with speed setting controlled automatically. Additional features such as auto-reliable mode and data compression are activated automatically if the answering modem supports them.

To use the outbound modems:

At the "DIAL" prompt:

TYPE	modem
PRESS	<RETURN>

When the campus network replies with "ANSWERED", your terminal is connected to an outbound modem.

TYPE	ATZ
PRESS	<RETURN> to reset the modem to its default settings. When "OK" appears on your screen, you are ready to call out from the network.

To place on-campus calls:

TYPE	ATDT 4XXXX
PRESS	<RETURN>

To place off-campus local calls:

TYPE	ATDT+ 8 + seven digit number
PRESS	<RETURN>

Note When placing long distance calls, you must use an authorization code; you will be charged regular long distance toll rates. To obtain an authorization code, call the Telecommunications Office at 294-8585.

To place long distance calls:

TYPE	ATDT
	8 + 1 + area code
	seven digit number
	W
	authorization code
PRESS	<RETURN>

The "W" tells the modem to wait for the dial tone before dialing your authorization code.

When the modem connects to the remote system, "CONNECT" (speed) (mode) is displayed, where (speed) indicates the baud rate, and (mode) indicates special features such as RELIABLE or COMPRESSED.

Press <RETURN> a few times to get a login prompt; then log in as usual. When you finish, follow appropriate logout procedures; then hang up from the modem by entering your disconnect sequence (<BREAK><BREAK>).

ISN/Ethernet Gateway

The terminal servers provide a gateway between the ISN and FDDI/Ethernet network.

To access the Ethernet network from ISN:

At the ISN "DIAL" prompt:

TYPE	"ETHERNET" or 'ENET'
PRESS	<ENTER>
VIEW	"RINGING" and "ANSWERED"
PRESS	<ENTER>
VIEW	MENU OPTIONS

To access ISN from Ethernet (required only to use outbound modems):

The following information is intended to offer you direction as you enter the business world. After thorough studies, our crack research team has compiled this for your use. Use it and learn what not to do at your next job interview.

MY RISE TO THE TOP

My first job was with Good Ole' Days Restaurant and Ice Cream Parlor. "Milk Shake Girl" was my name and gourmet frozen drinks were my game. I must have shown promise. On my first night, after a waitress phoned in sick, I was promoted to "Milk Shake Girl/Waitress". The Milk Shake job was basically a "no-brainer". My only waitress experience, however, involved bringing my lazy older brother an occasional Twinkie® or two.

Calm on the outside, I approached my first table. I proudly introduced myself. The friendly family with two small children ordered four frozen concoctions, each a different gourmet flavor. As a "Milk Shake Girl", I knew this required four mandatory blender washings. With an ever growing crowd, this represented a high degree of difficulty. After successfully making each shake I returned to the table.

I was amazed at my waitressing finesse. I triumphantly balanced the four fountain glasses high above my head. After delivering two shakes safely to the mother and father I heard the crash of breaking glass followed by a blood-curdling scream. Horrified, I glanced at the little boy who was now wearing a mint green toupee. I guess I had risen to the top of my profession a little too quickly. The next day I was back to being Lauren, the "Milk Shake Girl."

The moral to the story: Start your rise to the top with a smart career plan. Use your campus directory to find employment leads.

CHOW down!

Restaurant Guide

Once fire was discovered people started cooking food.

Of course not all eating establishments have taken advantage of fire as a cooking method. The following restaurant section offers you a listing of the best bets for dining on and off campus.

Hungry?
Chow down!

The following information is intended to offer you direction as you enter the dating world. After thorough studies, our crack research team has this for your use. Use it and learn what not to do at your next date.

The Perfect Woman

Sophomore year in college I was a stud. My parents rented me a great place just off campus. It was my "babe-magnet". The ultimate in bachelor pads. It's funny how things turn out. There was only one night when my apartment came remotely close to being the "pick-up" pad I had intended. The night I had the date with the perfect woman.

I had met yet another perfect woman. I wanted to impress her with my studliness. I decided to cook for her. I was nervous. My only specialty was Dip à la Ed. All I needed for that was some melted Velveeta® with a side of Tostitos®. But, I had a plan. Five "boil-a-bag" dinners, a head of lettuce and a loaf of French Bread and I was in business.

I boiled my dinners, disposed of the evidence and prepared to brag about my hours of drudgery in the kitchen. The only thing I didn't plan on was that my perfect woman was a gourmet cook who had eaten "boil-a-bag" Fettucini Alfredo in the past. She wasn't amused, and I moved on to many more "perfect" women.

The moral to the story: If you've got a date with the perfect woman take her out to a restaurant featured in this year's restaurant section!

ALL ABOARD!

The following information is intended to offer you direction as you embark on Spring Break 1995. After thorough studies, our crack research team has compiled this for your use. Use it and learn what to do or not to do on Spring Break this year!

Seven sorority sisters and I planned to go to The Bahamas for spring break. We got a great deal on a flight connecting through Miami. We were all set...or so we thought. One week before our scheduled departure, Eastern Airlines went on strike. So much for our great deal! Our flight to Miami was canceled. The flight to the Bahamas, however, was still flying.

All we needed to do was to get to Miami. We made the most of it and left 2 days early on a 36 hour train to Miami. We spent most of the time in the dining car. We ate, drank and made friends with the bartender, Carlos. After a long night I made my way back to my seat between a sweet old couple from Iowa. We arrived in Miami early the next morning. I woke to the chuckles of the old couple. I must have drooled on myself all night long because the entire front of my shirt was soaked! I was mortified!

The moral to the story: Use a travel agent who is up on potential airline industry strikes!
